SKY CURTAIN USAGE SCENE DIAGRAM

The poles and hammocks are used for the shooting scene, and they need to be purchased separately

Canopy for hammock

As a simple tent

Building with poles

As a picnic mat

Inferior ordinary iron buckle ❌

The sharp corners are easy to rust, and it is easy to hook the rope and hammock

Our buckle ✅

Special black steel buckle flat angle is smooth and durable

Not easy to damage ropes and hammocks

Ordinary tree rope ❌

Ordinary ropes are easy to become thinner and longer, and it is very inconvenient to tie trees and go around.

Our professional tree belts ✅

Equipped with double-ring or multi-ring tree belts to bear heavy load, it is more convenient to use and the applicable distance is longer

Ordinary connecting rope ❌

Poor firmness, small pulling force, easy to break and troublesome to replace.

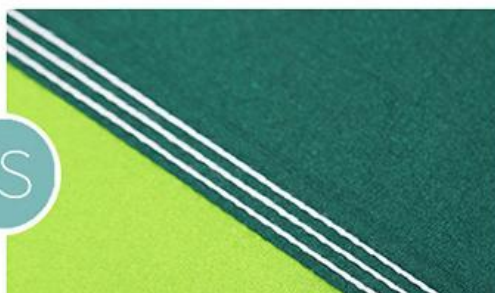

Our connecting rope ✅

Strong webbing (3 bar tack stitches) for better fastness and easier replacement.

Ordinary double needle sewing, easy to open thread

Three-pin link, stronger and stronger

Special black steel buckle flat angle is smooth and not rust, not easy to damage the rope and hammock

OUR BUCKLE ▲

The sharp corners of ordinary iron buckles are easy to rust for a long time, and the sharp corners are easy to damage the rope and hammock

OTHER TYPES OF BUCKLE ▲

With black gold steel buckle and
double ring tree strap
