

SOLAR CHARGING LIGHT

Outdoor emergency battery life

USE SIMPLE OUTLINE | RESHAPE THE PRECIPITATION TECHNOLOGY
| SPECIFICALLY FOR LIGHTING

Highlighting light core

Charge the phone

Power display

Gear control

Outdoor waterproof

Portable hook

Built-in lithium battery

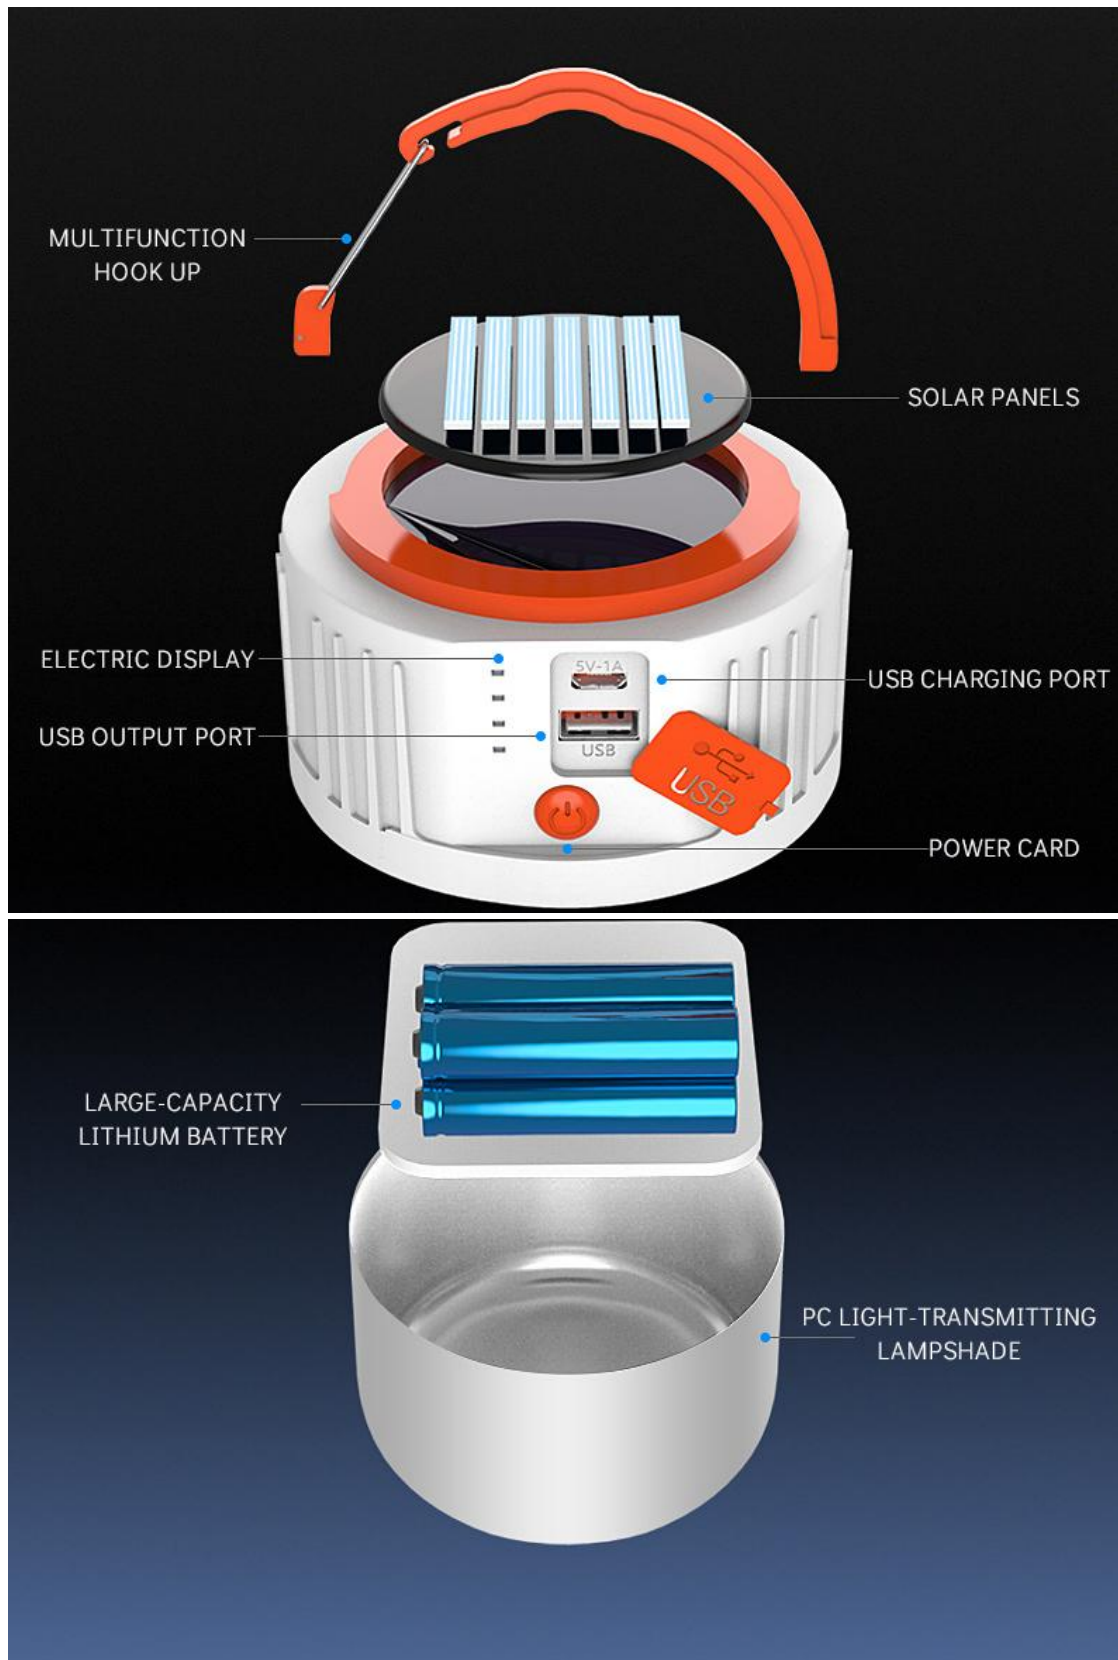

Smart circuit

CONDENSE POWER OF TECHNOLOGY

New monocrystalline silicon solar panels with improved body integration, high power, high photoelectric conversion efficiency.

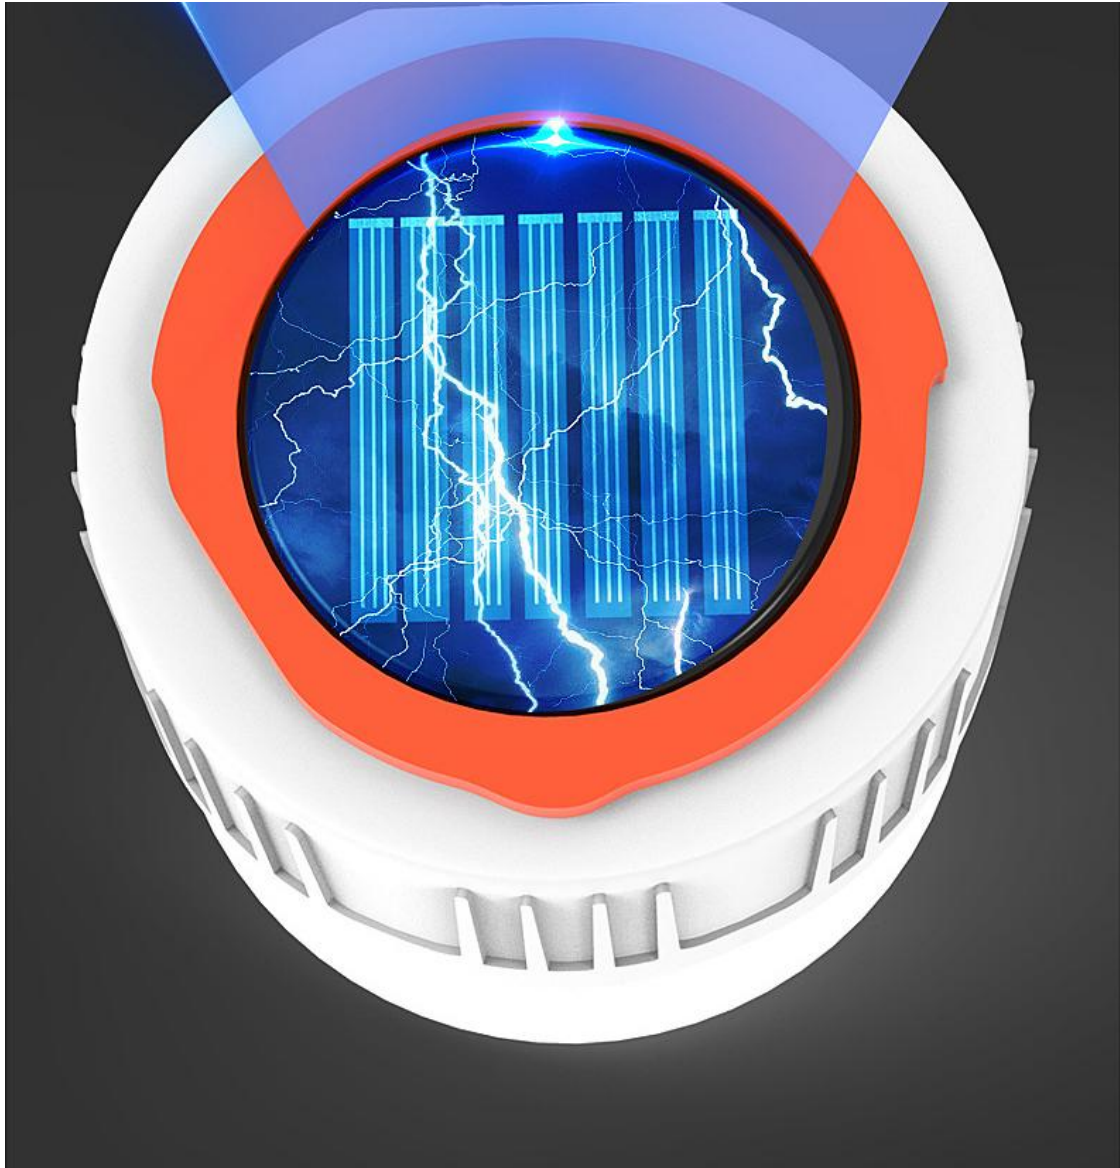

CONDENSE POWER OF TECHNOLOGY

New monocrystalline silicon solar panels with improved body integration, high power, high photoelectric conversion efficiency.

CHARGE PHONE POWER SUPPLY

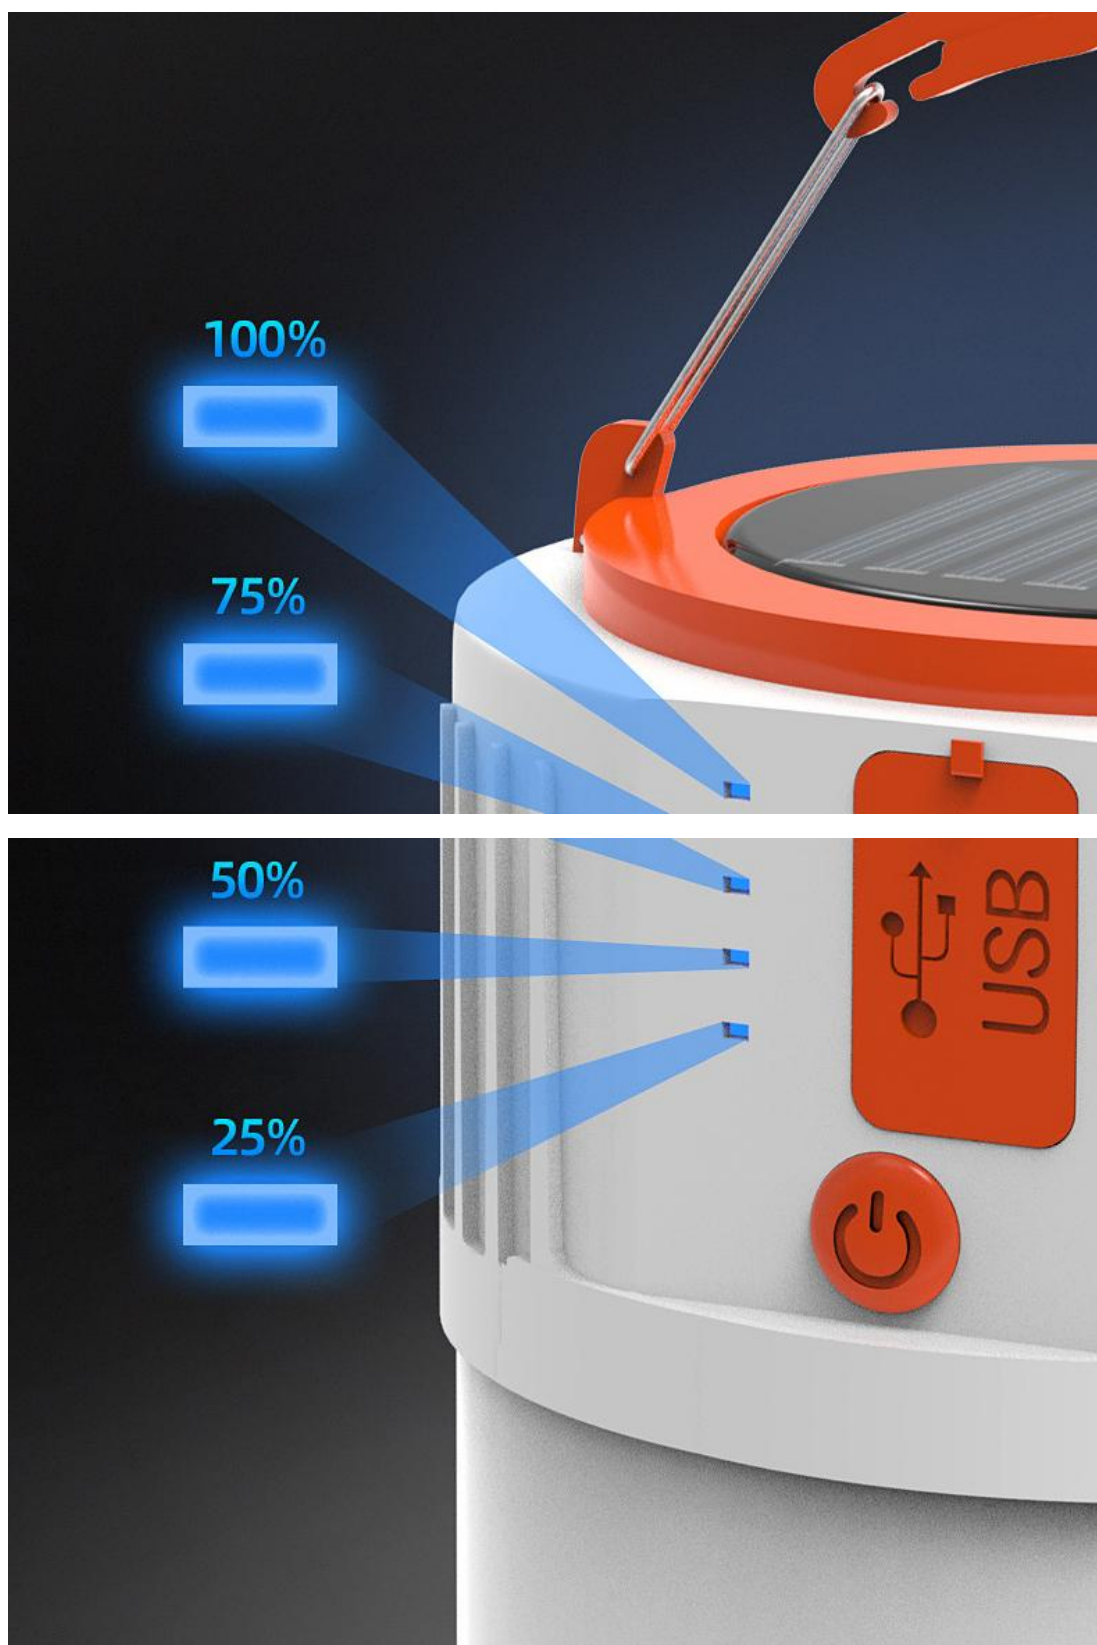

Equipped with USB charging holes

Can charge the mobile phone emergency, charge the emergency power supply at any time

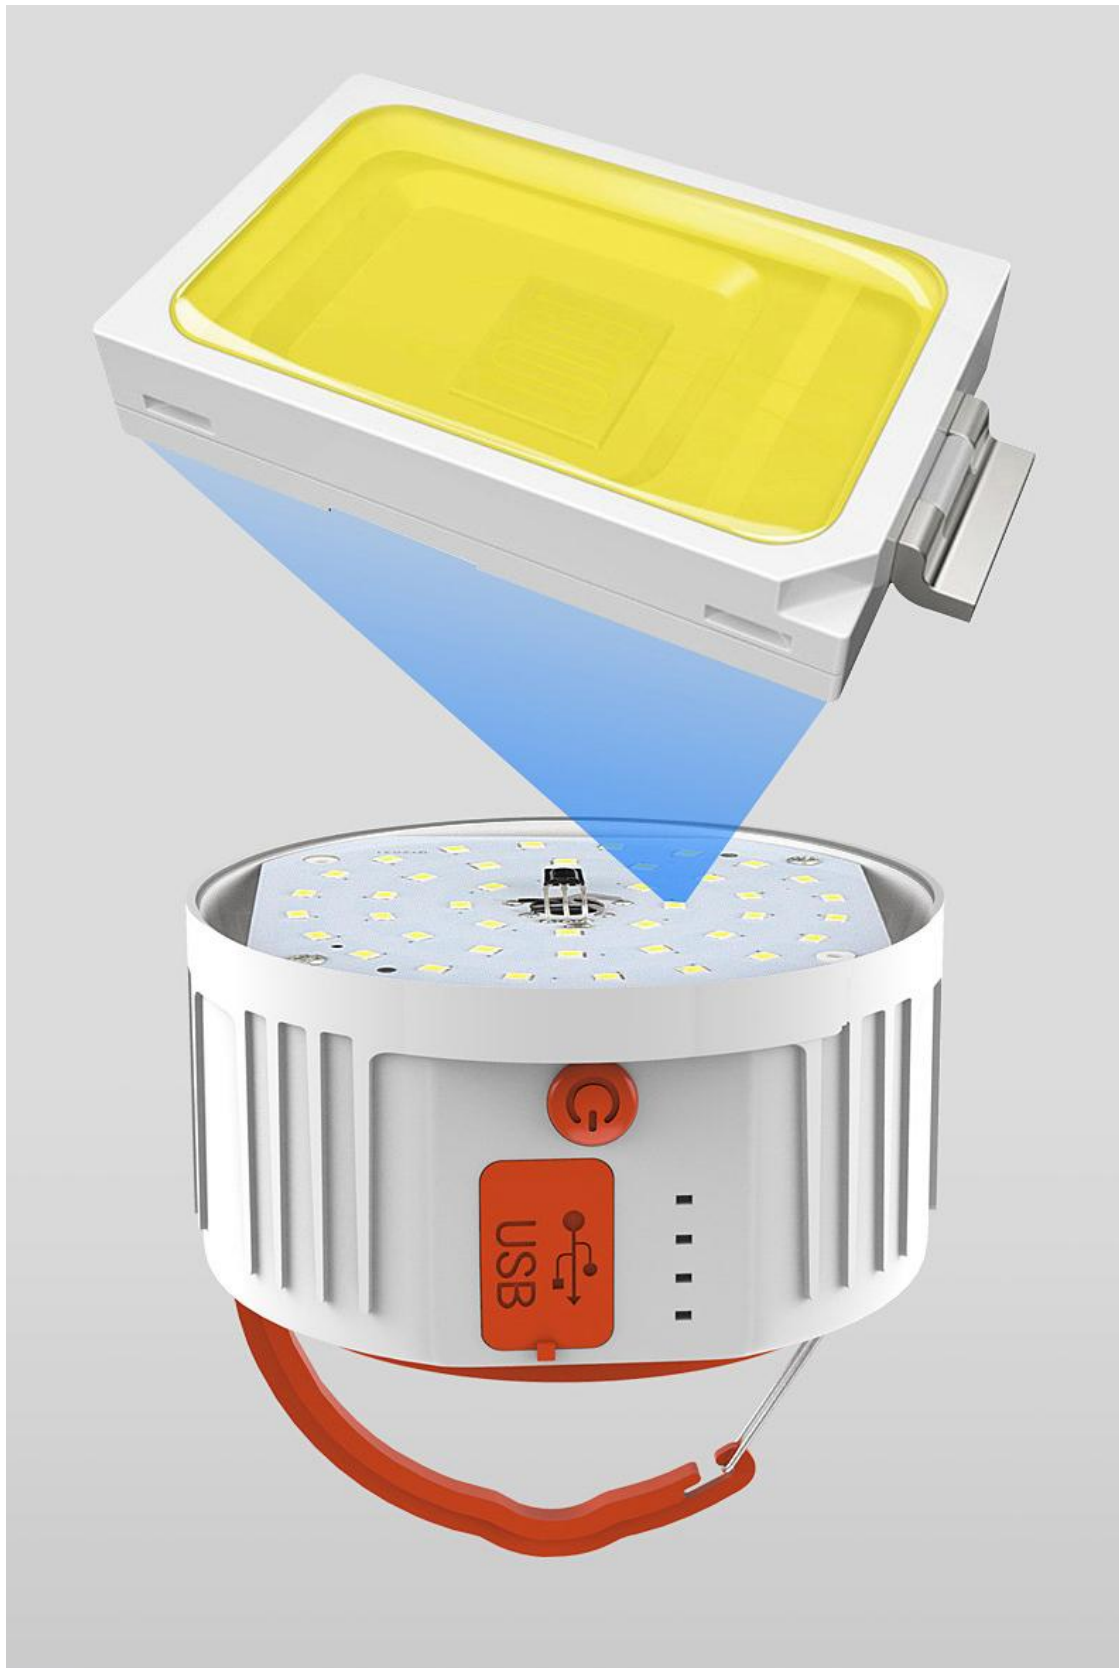

POWER DISPLAY AT A GLANCE

The four -gear real -time power display, knowing the endurance status and charging indicator at any time.

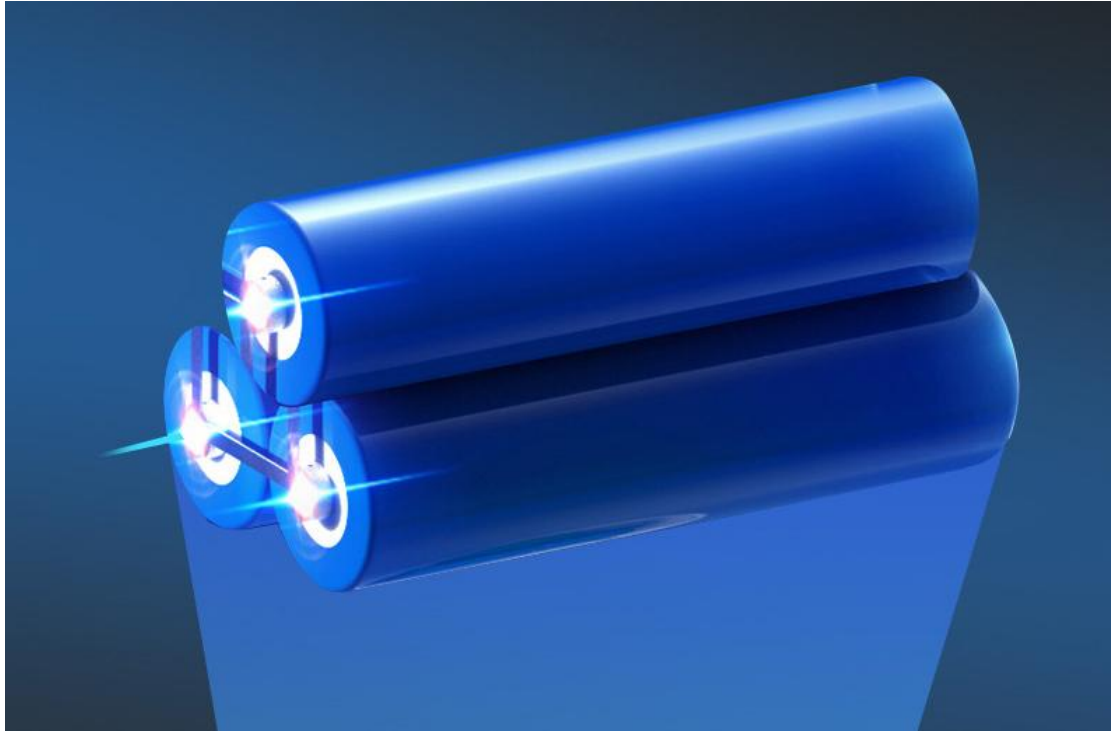

HIGHLIGHT PATCH LED CORE

24 LED lights, each one is very bright

VOYAGE LARGE-CAPACITY LITHIUM BATTERY

Built-in high-capacity, high performance, explosion-proof lithium battery pack, long-term battery life

Model:	5805	Power display:	Intelligent four -gear electric display
Output method:	USB output	Charging method:	USB direct charging input
Lighting time:	4-6 hours	Product lamp beads:	Multi-core LED patch

How to use:	Hook up	Lighting gear:	Strong light/mid -light/weak light/burst/sos
----------------	---------	-------------------	--

Smart power display

Solar charging

USB emergency mobile phone charging

Universal metal hook
